

# How to join the zoom sessions - step by step guide

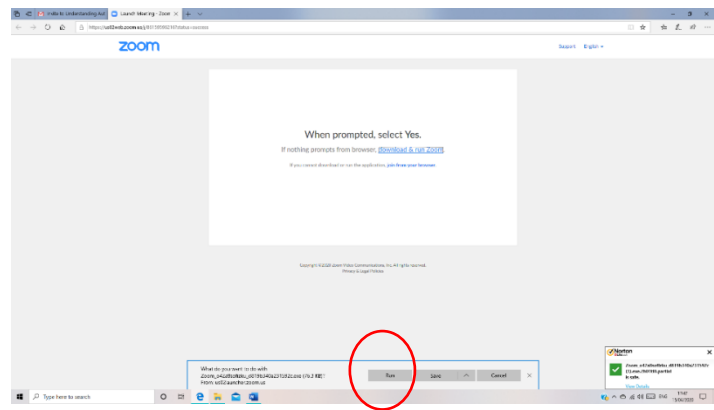

1. You will receive an email inviting you to the training session  
Click on the link within your email and it will take you to the next screen

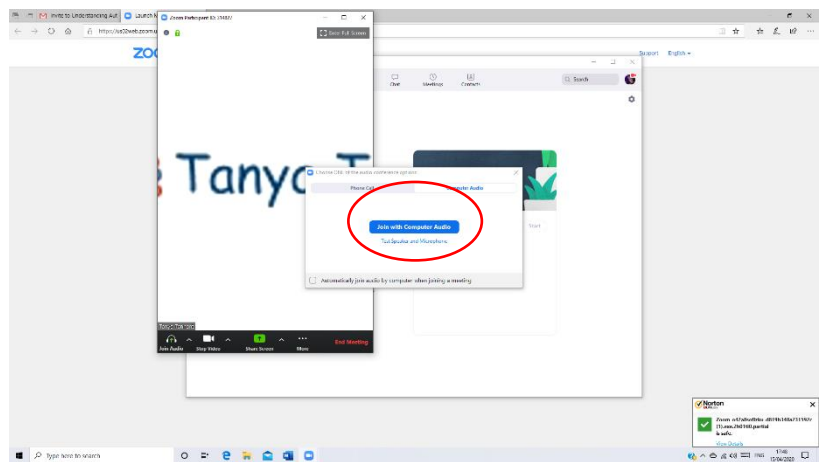

2. Once you have clicked on the link in the email, it will take you through to a page that looks like this - Click on download and run zoom

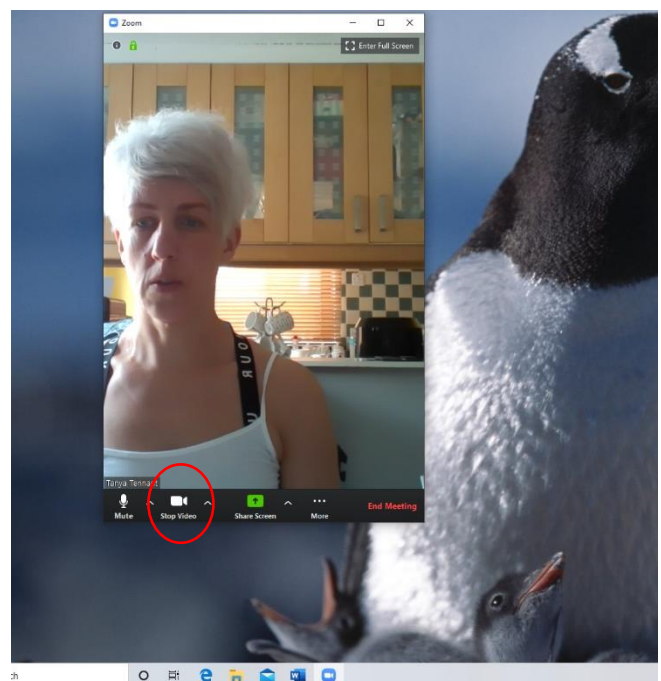

3. Then click on Run button that pops up on the bar at the bottom of your screen

4. After clicking on Run it should take you through to a screen that looks similar to this. Click on join with computer audio

5. This should then take you to the zoom session and you should now see yourself on your computer screen within the zoom session. If you don't see yourself on the screen click on the video icon button that you should see at the bottom left hand side of the session. Once you're in I'll take everyone through the screen settings so you have a positive experience.

I'm really looking forward to virtually meeting you all 😊
